Procedure for Obtaining Student Mathematica

1. Go to the Wolfram User Portal to create a Wolfram User ID. Use your Washington University email address.

2. Send an email to Software Licensing with a copy (cc) to Ms. Carole Swindle (caroles@wustl.edu). In the body of the email indicate you are paying for student Mathematica. The email is primarily so IS&T – Software Licensing can keep track of the requests. You may pay in 1 of 2 ways:
   a. If paying by credit or debit card, contact Ms. Swindle at 314-935-4775. She is in the Information Technology & Services (IS&T) business office and can process your card information.
   b. If paying with a check, make it payable to Washington University and send it by campus mail to Campus Box 1110, Attn: Software Licensing.

3. Click on Wolfram Activation Key Request Form, sign in with your Wolfram User ID, complete the request form and submit it. You will receive an activation key that is valid for 15 days.

4. Upon receipt of your payment, IS&T – Software Licensing will approve your request and extend the time period of your activation key.
